

## Regional Champion – Miles D, Manitoba

Miles D. of Winnipeg, Manitoba is in grade 5 and is 11 years old. He was diagnosed with type 1 diabetes three weeks after his first birthday. He first attended camp at the age of 7. Two summers ago, he held a lemonade stand for JDRF but loved camp so much that last year decided to steer his fundraising efforts in the direction of D-Camps. With the help of Put a Squeeze on Diabetes and 5 days of hard work he raised over \$1800 to help send kids like him to camp! He came back from camp this summer and said "I want to make sure more kids can go to camp because it is so great!" So he sat at his lemonade stand for another 3 days and ended up with more than \$2100 total.

He is so excited to bring Put a Squeeze to Manitoba!
